

"Jesus In the Old Testament" – 2

February 7th, 2010

- 1) What are examples of how the world tells us the Bible is not true?
- 2) Can you think of other evidences besides prophecies about the future that something is a divinely inspired communication? What would be evidence against divine inspiration? Why do you think God chose to use future prophesy?
- 3) Read Romans 1:19-20. Do you agree there is a clear evidence to believe in God apart from the Bible?
- 4) Why do some people say all religions lead to God? What are the three possibilities that could be true about the 34 belief systems that claim to be based on inspired Scripture? How would we determine which books are from God?
- 5) In what ways did the message claim the Bible is unique. Why is it significant that the Bible is unique. What do we need to find in the Bible to know it is God's communication? What does the Bible tell us to look for?
